

Remember the old adage ***“a picture is worth a thousand words?”*** In the case of aerial photography it could help earn your company thousands of dollars at an affordable rate. It could also save you thousands of dollars by documenting construction progress.

Aerial packages start from \$400. We use high quality Canon professional-grade digital camera equipment, as used by many commercial and architectural photographers. We offer aerial, ground, ground & air, and air-to-air packages. If you're on a budget, talk to us about pricing. We'll work to find the right price package for you!

Aerial photography has been proven to increase sells of many projects by improving advertising applications.

WHY AERIAL PHOTOGRAPHY?

- Aerials are great for showing surrounding infrastructure and contextual relationship to the site
- Aerials are an excellent tool for sub-contractor briefings – Can save you time and money!
- Allows the contractor to see overall views not easily seen from the ground
- Provides documentary evidence of construction phases for bankers/financiers
- Provides visual IMPACT aids for sales, marketing and advertising
- Provides out of town investors / lenders / owners with up-to-date information
- Tracks progress to the completion date and provides evidence if something goes wrong
- Aerial photography has been proven to increase sales of projects by improving advertising
- Provides wall décor for board rooms or makes a great gift for clients as a pride of ownership
- Useful for brochures, presentations, annual reports, and the web
- Provides insurance protection in the event of claims by subcontractors, suppliers, vendors

We are a professional organization working throughout Colorado to bring you the very best in aerial photography. We promise to provide our customers with quality products, superior, and reliable service. Our ultimate goal is to have our customers become repeat clients.

Who's behind Colorado Aerial? Debbie & Brian Cruikshank combine a background of aviation, photography and construction knowledge. Debbie has a degree in architecture and worked in the field for 8+ years till she found her passion for flying. Both Debbie & Brian are pilots. Photography has been a long time hobby for both so they decided to tie them together and create Colorado Aerial Photography. Having an architectural background is beneficial for aerial photography because Deb has been trained to pay attention to detail and composition. Another added bonus is that she can understand the construction language in the field.

Give us a call and we'll be happy to assist you in finding an aerial package right for you. We will be happy to send a detailed quote to you today. We'd love to hear from you!
